## Shea's Shoe Store

## People tell us our store is different

Of course it's different.

Because it's a service grocery. It's not just a store where groceries are sold.

It's a place where everything is done to make buying groceries a real pleasure.

A big stock of good things to eat. Courteous, intelligent clerks, who understand their business thoroughly. Prompt deliveries.

A telephone that is always open to you.

A place where you can have a charge account if you so desire.

A store that sells quality goods which it can recommend without the slightest fear or hesitation. To illustrate what we mean, just consider the question of baking powder. It's only a small part of our entire business, but we consider it a most important feature.

Because baking powder plays such a vital part in the preparation of food in your home. If it isn't good it can ruin a great amount of good material. Therefore the baking powder we recommend must be good—so good that we won't have the slightest chance of displeasing a customer.

RYZON is such a baking powder. It's pure, it's always uniform, always efficient, and it will do anything any other baking powder will do. It's priced fairly and honestly, too, 40c per pound tin.
